InfoHesiveEP Freeware!

- Free for individuals, education, and commercial businesses.
- Repurpose existing content for your audience.
- Produce high quality eBooks, Help Files, Manuals & Guides.
- Output to PDF, HTML, CHM, ePub, and other formats to ensure your publication is delivered to Windows, Mac, Phone, and other Mobile Devices.

ePublishing in a Nutshell

InfoHesiveEP is a digital content conversion program and ePublisher for individuals, authors, publishers, educational institutions, and commercial businesses. InfoHesiveEP allows you to easily produce ePublications with its integrated editor, and is also the perfect solution to repurpose your existing content for publication via email or online.

Distribute Across Platforms

After importing your documents, HTML, and help manuals, tidy up any inconsistencies using the on-board InfoHesiveEP editor, then export to PDF or a range of formats that can be read across platforms.

Improve Product and Service Support

Use InfoHesiveEP to create consistent answers that support staff provide to customers. Refine your support responses over time, thus continually improving the information your company provides to your customers and clients.

Fully functional 30 day evaluation version.
No nag messages.

Highlights

A few of the program highlights that show InfoHesiveEP as a powerful ePublisher:

- Fully functional 30 Day Evaluation Version. No nag messages, and free support during the trial and to all registered licensees!
- Lifetime royalty-free distribution of InfoHesiveEP publications.
- Spell Check and on-board Thesaurus.
- Import and Export to a wide range of formats including CHM and HTML.
- Version Backups allow you to quickly revert to an earlier draft.
- Customizable Interface.
- Option to Make Publisher's Key file without which InfoHesive Documents cannot be edited.
- InfoHesiveEP can quickly copy Items into other applications (e.g. Email Composer, Word etc).
- System Wide Shortcuts provide easy retrieval of Information.
- Reuse your favorite layouts by defining your own Outliner Templates.
- Extensive Help File.

Digital Publishing Made Easy

InfoHesiveEP allows you to build your ePublication under an organizational model of WorkSpaces, Topics, and Items.

Repurpose Existing Content

Alter and enhance your digital content so it can be used in new ways over a variety of distribution platforms.

e-Publish

Easily create compact publishable eBooks, PDFs, Help Files, and also export to HTML & ePub. InfoHesiveEP eBooks can be distributed royalty-free (the author has the right to produce and distribute as many copies of their eBook as they wish). Anyone can read InfoHesiveEP eBooks using the freeware InfoHesiveEP Viewer, and eBooks can also be published as self contained publications that do not require software to run.

Develop Help Files

Develop your Help File together with its supporting digital resources (PDFs, image files, spreadsheets etc.), then easily distribute this to your readership. Whether commercial or non-profit, ensure your audience receive high quality promotional and instructional guidance.

A Project Management and Development Tool

Use InfoHesiveEP to collaboratively outline and develop projects, then distribute them easily to your colleagues.

Develop Company Documents

Use the Project WorkSpace in InfoHesiveEP to create your business plans and company documents. The great advantage of using InfoHesiveEP is that any file types can be referenced in a single InfoHesiveEP WorkSpace (PDFs, spreadsheets, word processing documents etc.).

A Study, Research, and Academic Aid

Use InfoHesiveEP to research, share and amend lecture notes. Quickly create revision notes and a reference to existing documents on your computer and the Internet.

Powerful Authoring Tool

Write and publish your work (novel, non-fiction, guides etc.) complete with images and Web links. Your e-book can be saved as a read-only InfoHesiveEP Viewer file that anyone using a Windows computer can download and use without the need for any other software. Also export to many formats.
